RELATED DOCUMENTS: This Drawing may be part of an integrated set of Construction Documents, including the executed Agreement, the General and Supplemental Conditions of the Contract, Division-01 "General Requirements", and applicable "technical" Specification Sections. The Contract Documents are complementary; what is required by one is as binding as if required by all. Other documents affecting the Work may include Geotechnical recommendations, Manufacturer's Product Data and installation requirements, Shop Drawings and Coordination Drawings. Failure to review applicable documents does not reduce the obligation to provide complete and operational building components.

THE INTENT OF THE CONTRACT DOCUMENTS is to include all items necessary for completion of the construction Work indicated. Except as otherwise indicated, provide (furnish and install) all products, materials, equipment, options, trims or accessories necessary for proper operation and use, in accordance with product manufacturer's requirements, and comply with applicable laws, codes and ordinances of Authorities Having Jurisdiction (AHJ).

VERIFY EXISTING CONDITIONS AND DIMENSIONS prior to construction. Calculate and measure dimensions – **DO NOT SCALE THE DRAWINGS** unless so directed by the Architect. Dimensions indicated are to the face of a material unless otherwise indicated. Application of a material or equipment item to Work installed by others constitutes acceptance of that Work, and assumption of responsibility for subsequent satisfactory installation.

THIS DRAWING WAS PREPARED under the Architect's supervision, and is an "Instrument of Service" intended solely for use on this Project. The Architect's Services are performed solely in the interest of the Architect's Client - no obligation is assumed by the Architect for the benefit of any other entity involved in the Construction Work. The information, ideas and designs indicated - including the overall form, arrangement and composition of spaces or building elements - constitutes the original, confidential, and unpublished Work and property of the Architect. Possession of this Drawing confers no right or license to disclose to others the subject matter contained herein for any but authorized purposes. Unauthorized use, reproduction or distribution – in whole or in part – is strictly prohibited. Copyright © 2018 by KEM STUDIO.
