D-Series Size 0 LED Area Luminaire

Specifications table for D-Series luminaire including length, width, height, weight, and part numbers (e.g., 40C, 40B, 40M).

Introduction

The modern styling of the D-Series is striking yet unobtrusive - making a bold, progressive statement even as it blends seamlessly with its environment.

The D-Series distills the benefits of the latest in LED technology into a high performance, high efficacy, long life luminaire. The outstanding photometric performance results in sites with excellent uniformity, greater pole-spacing and lower power density. It is ideal for replacing up to 400W metal halide with typical energy savings of 65% and expected service life of over 100,000 hours.
