Guidelines For Usage On Metric Projects

When these details are incorporated into plans and or projects that are being prepared or constructed in metric units, exact or precise conversion to metric units is not required. The dimensions shown that are in feet and inches may be converted to corresponding metric units using the following "Rounded-Off" conversion factors: 1"=25mm, 1'=100mm and 10 feet = 3 meters. All measurement notes that refer to linear feet and square yards shall be interpreted to mean linear meters and square meters.
