S-BLADE TECHNOLOGY

3 Blade with Luster Guard™ ribbed surface texture is the lowest luster UV stabilized turf yarn in the industry. These microscopic ribs eliminate the shiny mirror effect that makes artificial grass look like plastic.

3 Blade yarn system takes durability to the next level! It's fiber wear was tested at 50,000 cycles (50,000 cycles= 20 yrs of wear). This Luster test gives a visual indication on how a synthetic turf system will age in time.

3 Play Zone's test results scored the highest rating for fiber splitting and tuft loss.

3 The ribbed blade also eliminates weak points in the fibers creating unprecedented split resistance.
