ADDENDUM NO. 1: BID 2021-01 PIPE MAKERS CANAL IMPROVEMENTS – DIVISION 2 CHANNEL MAINTENANCE

The information contained in this document shall become an official part of the original document and shall be acknowledged as noted on the Bid Form. Failure to acknowledge receipt of an addendum may result in a status of non-responsive. Bidders are encouraged to review the contents of this document and to respond accordingly.

Addendum No. 1 is hereby issued for clarification.

I. PROJECT MANUAL

A. Division 0 – Bidding and Contracting Requirements:

1. Document 00 21 13 **Instructions to Bidders** shall be modified as follows:

Revise Article 10 - SUBSTITUTE AND "OR-EQUAL" ITEMS to read as follows:

- 10.1 The Contract, if awarded, will be on the basis of materials and equipment specified or described in the Bidding Documents, or those substitute or "or-equal" materials and equipment approved by ENGINEER and identified by Addendum. The materials and equipment described in the Bidding Documents establish a standard of required type, function, and quality to be met by any proposed substitute or "or equal" item. No item of material or equipment will be considered by ENGINEER as a substitute or "or equal" unless written request for approval has been submitted by Bidder and has been received by

ENGINEER at least **8 days** prior to the date for receipt of Bids. Each such request shall conform to requirements of paragraph 6.05 of the General Conditions. The burden of proof of the merit of the proposed item is upon Bidder. ENGINEER's decision of approval or disapproval of a proposed item will be final. If ENGINEER approves any proposed item, such approval will be set forth in an Addendum issued to all prospective Bidders. Bidders shall not rely upon approvals made in any other manner.

B. Division 2 – Site Work Specifications

1. SECTION 02210 EROSION AND SEDIMENT CONTROL:

Add paragraph 2.06 as follows:

2.06 SLOPE STABILIZATION BLANKET

Slope Stabilization Blanket shall meet the requirements of the **Manual for Erosion and Sediment Control in Georgia**, latest edition and of Section 713 of the GADOT Standard Specifications. Material shall be a short-term biodegradable single-net straw erosion control blanket similar to Western Green S75BN or approved equivalent.

II. CONSTRUCTION DRAWINGS

- A.** The construction drawings are available in an AutoCAD format to all official plan holders from Coleman Company, Inc. upon completion of the attached Electronic Information Disclaimer. Bidders are reminded of the provisions of the **Standard General Conditions of the Construction Contract, Article 3 – Contract Documents: Intent Requirement, Reuse.**

III. CLARIFICATIONS

- A.** Written questions and clarifications and requests for material substitutions must be submitted to the Engineer no later than end of business Wednesday, January 13, 2021.

- B.** The Contractor shall provide a post construction Record Survey of all graded areas. This shall include a 100-foot grid or cross section data at 100-foot intervals based on the project survey control. The survey shall be completed by an experienced and qualified surveyor but is not required to be certified. The Contractor shall deliver the Record Data to the Engineer in a digital points file with the location, elevation, and description of each point. Payment for the survey will be included in the item “Flood Plain Mitigation”. No separate measurement or payment will be made.
- C.** The following contractors attended the Mandatory Pre-Bid meeting held on January 5, 2021. Only official plan holders in attendance at this meeting are eligible to submit bids on the project on January 21, 2021. The original sign-in sheets are on file at the offices of the Coleman Company.
