NOTES FOR THIS SCHEDULE:

(1) IT IS THE CONTRACTOR'S RESPONSIBILITY TO COORDINATE ELECTRICAL WITH MECHANICAL EQUIPMENT REGARDING VOLTAGE AND PHASE.
(2) DISCONNECT PROVIDED INTEGRAL TO UNIT BY DIVISION 15.
(3) MRS SHALL BE NEMA 3R FOR DISCONNECTS LOCATED OUTDOORS.
(4) PROVIDE GFI RECEPTACLE IF NOT INTEGRAL TO UNIT. COORDINATE WITH MECHANICAL CONTRACTOR.
(5) CONTROLLED BY WALL MOUNTED SWITCH. SWITCH SHALL BE A TIMER TYPE WITH A 30 MINUTE MAX "ON" TIME.
(6) SWITCH AND CIRCUIT WITH LIGHTS.
(7) SEE FLOOR PLANS FOR CIRCUIT.
(8) DFC SHALL BE CONNECTED TO CORRESPONDING ECU. COORDINATE EXACT REQ. WITH EQUIP. SUPPLIER PRIOR TO ROUGH-IN.
(9) LOAD INFORMATION INCLUDES DFC.
(10) CIRCUIT WITH LIGHTS, BUT PROVIDE SEPARATE MOTOR RATED SWITCH FOR EXHAUST FAN
(11) LOCK OFF BREAKER USED DISCONNECT. LOCK MUST BE PAD LOCKABLE, NEC 422.31(B).

NOTES:
1) This circuit breaker to have pad lockable device.
2) This shall be a GFI type circuit breaker.
3) Provide shunt trip type circuit breaker.
4) Per NEC 2017, 210.4 Each multi-wire branch circuit shall be provided with a means that will simultaneously disconnect all ungrounded conductors at the point where the branch circuit originates. This means that any circuit that shares a neutral shall be disconnected by a common means. Utilize 2-pole, 3-pole, or wire-tied circuit breakers where necessary.
5) Demand load for guestroom lights/recepts calculated by area per 2017 NEC Table 220.12, 220.14(J), & Table 220.42.
6) Diversity in accordance with 2017 NEC Table 220.84. 0 Units @ 100%.
7) Not used.
8) Not used.
9) Not used.

Phillips Gradick Engineering

NOTES:
1) This circuit breaker to have pad lockable device.
2) This shall be a GFI type circuit breaker.
3) Provide shunt trip type circuit breaker.
4) Per NEC 2017, 210.4 Each multi-wire branch circuit shall be provided with a means that will simultaneously disconnect all ungrounded conductors at the point where the branch circuit originates. This means that any circuit that shares a neutral shall be disconnected by a common means. Utilize 2-pole, 3-pole, or wire-tied circuit breakers where necessary.
5) Demand load for guestroom lights/recepts calculated by area per 2017 NEC Table 220.12, 220.14(J), & Table 220.42.
6) Diversity in accordance with 2017 NEC Table 220.84. 0 Units @ 100%.
7) Not used.
8) Not used.
9) Not used.
